

## **NOTICE OF VIOLATION**

The CITY OF GILMER water system PWS ID 2300002 has violated the monitoring and reporting requirements set by Texas Commission on Environmental Quality (TCEQ) in Title 30, Texas Administrative Code (30 TAC), Section 290, Subchapter F. Public water systems are required to properly disinfect water before distribution, maintain acceptable disinfection residuals within the distribution system, monitor the disinfectant residual at various locations throughout the distribution system, and report the results of that monitoring to the TCEQ on a quarterly basis.

Results of regular monitoring are an indicator of whether or not your drinking water is safe from microbial contamination. This/these violation(s) occurred in the monitoring period(s) January 1, 2023-March 31, 2023.

We are taking the following actions to address this issue by making sure all future reporting is done in the time allotted for each quarter by keeping a calendar of due dates. This will make sure of no other violations being committed.

If you have any questions regarding this matter, you may contact Kenneth Harris at 903-843-2552.
